

Carabiners- Aluminum

PICTURE	ITEM #	DESCRIPTION	LOCK TYPE	SHAPE	KN	COLOR	PRICE	NOTES
1	SM18001	SMC Mountain D	Non	D	27	Silver	\$10.25	
1	SM18002	SMC Mountain D	Non	D	27	Black	\$13.15	
1	SM18003	SMC Mountain D	Non	D	27	Purple	\$13.15	
1	SM18004	SMC Mountain D	Non	D	27	Orange	\$13.15	
1	SM18005	SMC Mountain D	Non	D	27	Red	\$13.15	
2	OPFO6S	Omega Five-O	Non	D	25	Silver	\$7.20	
2	OPFOS	Omega Five-O	Non	D	25	Blue	\$8.50	
3	M15	Petzl Spirit	Non	Mod. D	23	Silver	\$8.95	Lightweight
4	HD26138	PMI Mate II	Auto	D	28	Silver	\$15.00	
5	M34TL	Petzl Am'D Triact	Auto	D	28	Grey	\$16.95	
6	HD26137	PMI Mate II HMS	Auto	Pear	27	Silver	\$19.00	3 step auto-locking
7	M36TL	Petzl William Triact	Auto	Pear	25	Grey	\$17.95	
8	962	Kong HMS	Auto	Pear	22	Orange	\$18.30	Auto-twist
9	733	Kong Guide	Screw	D	30	Silver	\$13.00	
10	M34SL	Petzl Am'D	Screw	D	28	Grey	\$12.95	
11	SM18501	SMC Locking D	Screw	D	27	Silver	\$13.00	NFPA
11	SM18502	SMC Locking D	Screw	D	27	Black	\$16.90	NFPA
11	SM18503	SMC Locking D	Screw	D	27	Purple	\$16.90	NFPA
11	SM18504	SMC Locking D	Screw	D	27	Orange	\$16.90	NFPA
11	SM18505	SMC Locking D	Screw	D	27	Red	\$16.90	NFPA
12	OPFO6L	Omega Five-O	Screw	D	25	Silver	\$10.40	
12	OPFOL	Omega Five-O	Screw	D	25	Blue	\$10.40	
13	OPL6	Omega Standard D	Screw	D	31	Silver	\$8.00	
14	M36SL	Petzl William	Screw	Pear	25	Silver	\$13.95	25mm opening, Munter
15	M35SL	Petzl Attache	Screw	Pear	23	Gold	\$12.95	Munter
16	OPHM5L	Omega Jake	Screw	Pear	23	Grey	\$14.00	
17	786	Kong HMS	Screw	Pear	22	Silver	\$13.50	
18	M33SL	Petzl OK	Screw	Oval	24	Silver	\$13.95	
19	3D-HMS	Stubai HMS 3-D	Screw	Twisted	22	Red	\$20.00	Rotates rigging 45°

Use the right carabiner for the right application.

Carabiners come in many styles, shapes and sizes; it can be confusing which carabiner will best fit your needs. Look for some of the following features:

Locking or Non-locking: Screwgate, Autolock, Non-locking

Material & Strength: Aluminum, Carbon Steel, Stainless Steel

Shape: Oval, "D" or offset "D", Pear, Twisted

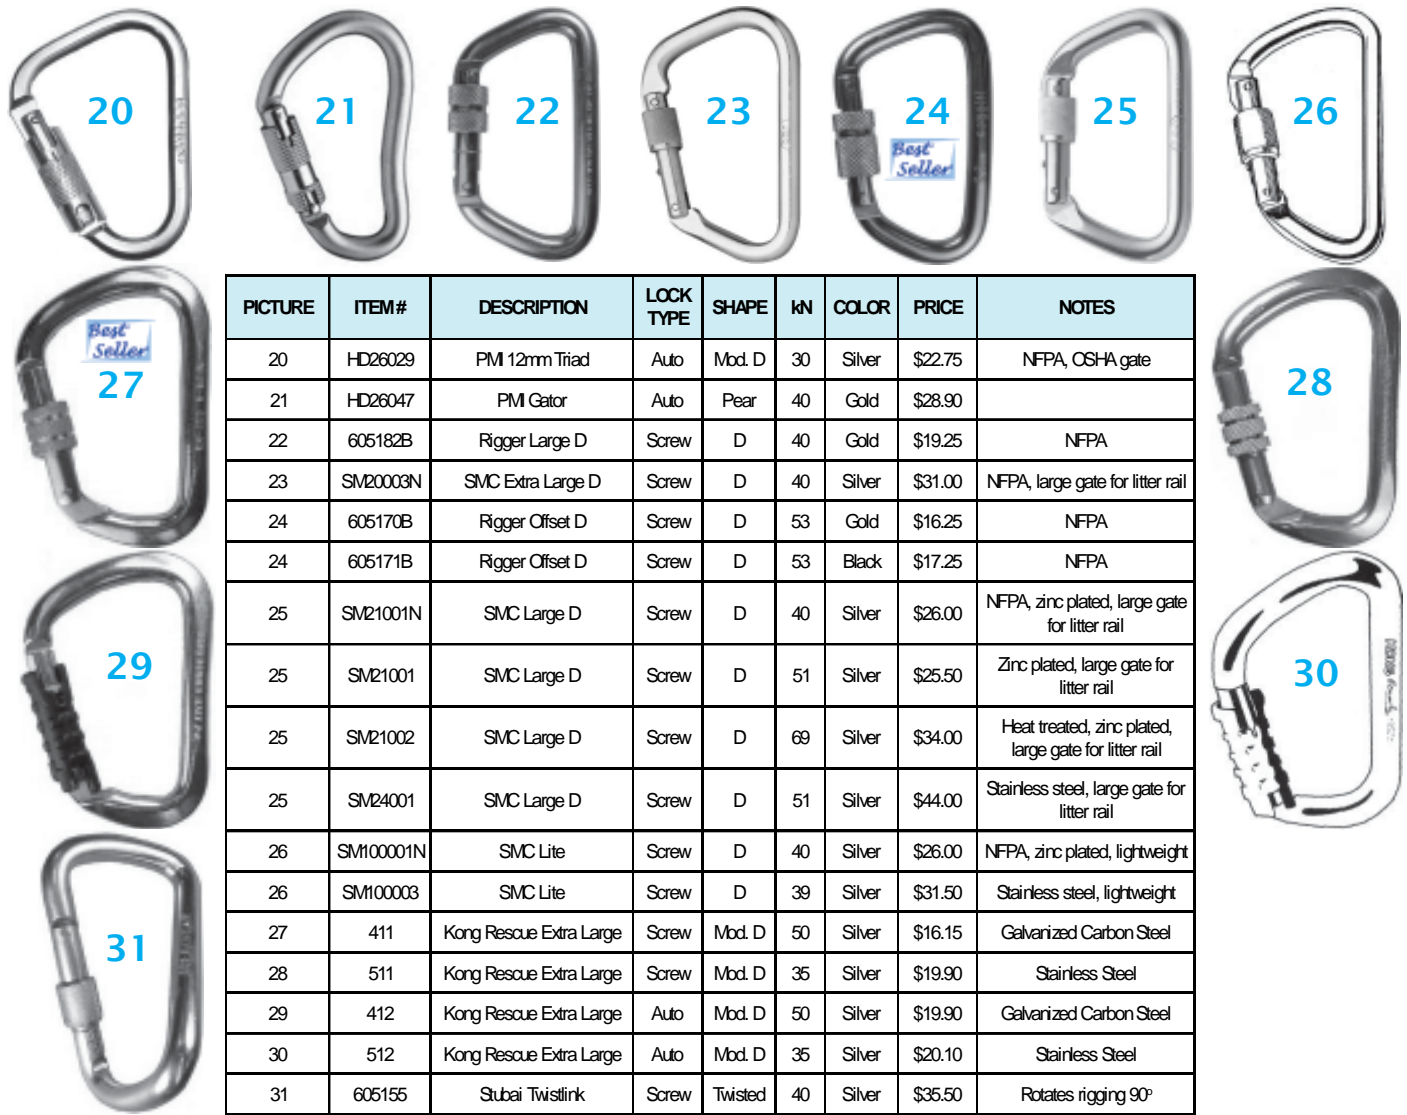

Gate type: Pin & Hook versus Key Lock (2 most common)

Gate opening: Is the gate opening large enough to fit around the object to connect?

Reservoir space: Is the loading space within the nose large enough to secure gear easily?

Remember: The spine (side opposite the gate) of a carabiner is the strongest part.

Carabiners- Steel

PICTURE	ITEM#	DESCRIPTION	LOCK TYPE	SHAPE	kN	COLOR	PRICE	NOTES
20	HD26029	PM 12mm Triad	Auto	Mod. D	30	Silver	\$22.75	NFPA, OSHA gate
21	HD26047	PM Gator	Auto	Pear	40	Gold	\$28.90	
22	605182B	Rigger Large D	Screw	D	40	Gold	\$19.25	NFPA
23	SM20003N	SVC Extra Large D	Screw	D	40	Silver	\$31.00	NFPA, large gate for litter rail
24	605170B	Rigger Offset D	Screw	D	53	Gold	\$16.25	NFPA
24	605171B	Rigger Offset D	Screw	D	53	Black	\$17.25	NFPA
25	SM21001N	SVC Large D	Screw	D	40	Silver	\$26.00	NFPA, zinc plated, large gate for litter rail
25	SM21001	SVC Large D	Screw	D	51	Silver	\$25.50	Zinc plated, large gate for litter rail
25	SM21002	SVC Large D	Screw	D	69	Silver	\$34.00	Heat treated, zinc plated, large gate for litter rail
25	SM24001	SVC Large D	Screw	D	51	Silver	\$44.00	Stainless steel, large gate for litter rail
26	SM100001N	SVC Lite	Screw	D	40	Silver	\$26.00	NFPA, zinc plated, lightweight
26	SM100003	SVC Lite	Screw	D	39	Silver	\$31.50	Stainless steel, lightweight
27	411	Kong Rescue Extra Large	Screw	Mod. D	50	Silver	\$16.15	Galvanized Carbon Steel
28	511	Kong Rescue Extra Large	Screw	Mod. D	35	Silver	\$19.90	Stainless Steel
29	412	Kong Rescue Extra Large	Auto	Mod. D	50	Silver	\$19.90	Galvanized Carbon Steel
30	512	Kong Rescue Extra Large	Auto	Mod. D	35	Silver	\$20.10	Stainless Steel
31	605155	Stubai Twistlink	Screw	Twisted	40	Silver	\$35.50	Rotates rigging 90°

Use the right carabiner for the right application.

Riggers should look for carabiners that equal the strength of the rope or other components they are using (i.e. 30 kN and 11mm or 40 kN and 12.5mm).

“D” or Offset “D” - Used for rigging and primary connections. In general, the gate has a large opening, and there is plenty of loading space.

Pear Shaped or HMS- Usually a larger reservoir space and gate opening then a “D”-shape but is often weaker because the object is positioned further away from the spine or main axis. The HMS is specifically designed for Munter Hitch use.

Oval- While not as strong as the “D”-shape, the oval will properly load when multiple items are connected at one time. The item being loaded will move to the superior position in the reservoir of the carabiner. For example, when a rappel device and QAS are clipped into using the same carabiner to the harness. As each device is loaded, it will push the other item to the side so that loaded gear can rotate to the center of the long axis.

Twisted - We carry 2 twisted carabiners that are manufactured by Stubai: The aluminum 3D-HMS carabiner has a pear shape and can be used to change the orientation of a connection by 45°. The steel “605155” carabiner can be used to change the orientation of a connection by 90°. These carabiners are very handy for pulley orientation at the top of tripods or at end stations.
