

## Pelican Gear Cases

Pelican Gear cases are the standard by which all other cases are measured! A neoprene o-ring keeps the case waterproof, and a built-in automatic pressure valve lets air out without letting water in. The new double-throw latch makes it easier to open the case. We also carry the full line of micro gear cases - perfect for protecting your digital camera, cell-phone, pager, GPS, PDA, wallet and other items that need to stay absolutely dry!

## OtterBox Cases

The new kid on the block, OtterBox cases are coming on strong. Made of fiberglass reinforced plastic, they are lighter than the Pelican line. The o-ring seal keeps out water, and the larger cases have a positive-seal vent to release air pressure after the case is closed. The large cases use a double-action clamp for easy open/seal tight protection. Call for price & availability on other OtterBox cases
