

Maillon Rapide Quick Links

Maillon Rapide Quick Links

- ✓ Maillon Rapide Quick Links are available in a variety of shapes: oval, long oval, delta, square, trapeze and half round. The delta and half round may work better than carabiners in situations where 3-way loading could occur (e.g. harnesses).
- ✓ Stay well within the Working Load Limit (WLL) which is stamped in kilograms on every link.
- ✓ The working load limits listed are with the nut fully threaded and loaded in the direction of the arrows (see below).
- ✓ Do not wrench nuts too tight as they could gall, strip or split.
- ✓ Working load limits are based on tension applied parallel to the longest dimension of the link.
- ✓ Links are available in galvanized steel ("GS"), stainless steel ("SS") and zical ("Z", an aluminum alloy).

ITEM #	SHAPE	MATERIAL	STOCK SIZE (mm)	INSIDE LENGTH (in.)	INSIDE WIDTH (in.)	GATE OPENING (in.)	WLL (lbs.)	BREAKING STRENGTH (lbs.)	PRICE
