Item #	Title	Author(s)	Description	Price
BK13011	On Rope, 2nd Edition	Bruce Smith, Allen Padgett	The new edition has twice the information as the 1st edition: new illustrations, new chapters, deeper more thorough analysis of systems, rigging and all facets of SRT. Rescue squads, arborists, circus/entertainment personnel, cavers, window washers and others often refer to the 382 pages with over 1,000 detailed illustrations as "The Bible of SRT". Autographed by Bruce Smith upon request.	\$30.00
BK13007	High Angle Rescue Techniques - 3rd Edition	Tom Vines, Steve Hudson	This complete course of study includes objectives, skills checks, and review questions for each chapter. 384 pages with over 500 illustrations and full color photos. Includes the NFPA Field Guide.	\$45.00
BK13003	Technical Rescue Riggers Pocket Field Guide	Rick Lipke	A pocket sized, quick reference guide to rigging. Shows some of the most up-to-date techniques for rope rescue available today. Covers everything from basic knots and anchors to highlines, belay, main lines, patient packaging and more. 126 pages with almost 300 illustrations. Spiral Bound	\$15.00
BK13019	Technical Rescue Pocket Field Operations Guide	Tom Pendley	A pocket sized, quick reference guide to rigging. Covers rope rescue, confined space rescue, swiftwater rescue, trench rescue, structural collapse, and helicopter operations. 150 pages with over 150 illustrations. Spiral Bound.	\$19.95
Z29WR	The North American Working at Height Handbook	Ropeworks	The North American Working at Height Handbook gives guidance aimed at reducing the risk of injury during Working at Height operations. It is intended to be used as part of a safety training program and as a handy ready reference guide. It is not intended as a fully comprehensive manual on health and safety, nor as a substitute for formal training.	39.95
BK06-004	Caving Basics	National Speleological Society	A comprehensive guide for beginning cavers that covers everything the beginning caver needs to know about exploring underground safely and responsibly. 187 pages with many photographs and diagrams.	\$11.00
BK666	Alpine Caving Techniques	Georges Marback, Bernard Tourte	A complete guide to safe and efficient caving with emphasis on vertical caving and rigging practices in Europe. Also presents new and thorough discussions of many other aspects of cave exploration. 320 pages with many illustrations.	\$34.50
993232	CMC Rescue Manual Pocket Field Guide	CMC Rescue	A pocket sized, quick reference guide to rigging. Includes anchors, haul systems, lowering systems. Printed on waterproof paper. 70 pages with many illustrations.	\$12.00
BK13006	The Morrow Guide to Knots	Mario Bigon, Guido Regazzoni	A compact guide that contains 70 of the most useful knots for sailing, fishing, camping & climbing. Complete step-by-step full-color pictures make tying knots easy. 255 pages with many pictures.	\$15.90
BK0016	On Call - A Complete Reference for Cave Rescue	National Speleological Society	A comprehensive reference for those interested in cave rescue. A useful field guide for rescue squads and Search and Rescue personnel who are occasionally called upon to work within a cave. 384 pages with many photos and illustrations.	\$25.00
BK0018	On Station - A Complete Handbook for Surveying and Mapping Caves	George R. Dasher	Written by one of the acknowledged leaders in the cave surveying field, it provides a systematic approach, beginning with compass and notebook and carrying all the way through to the printed map. The text is supported by many diagrams and cave maps in various stages to the final version.	\$16.00
