

Ropewalker Components & Accessories

OR1 Right Stiff Step

F01

\$22.75

- ✓ A sewn foot loop with a metal insert in the tread of the loop makes this stirrup the most comfortable stirrup a climber will ever use.
- ✓ A stainless steel Delta Maillon Rapide is used for the top attachment.
- ✓ Practice in sneakers, Texas, boat shoes, even street shoes.
- ✓ Stiff steps are the foundation and paradigm shift in the climbing world.
- ✓ Buckles are on the outside of all steps unless otherwise requested.
- ✓ Three standard sizes: 15, 16, 17. See "Sizing Information" below for details.

OR1 Left Stiff Step w/ Adjustable Riser

F02

\$31.00

OR1 Pair of Stiff Steps

F0102

\$52.50

- ✓ The left stiff step w/ adjustable riser (F02) and the right stiff step (F01, not the tandem step).
- ✓ See "Sizing Information" below for details.

Mitchell Stiff Steps

F01 (right)

\$22.75

F01L (left)

\$22.75

F0101L (pair)

\$45.00

- ✓ A pair of short stiff steps is available with opposing buckles.
- ✓ Good for Mitchell, knot climbers, Helical users and other lesser known systems.
- ✓ See "Sizing Information" on page 2 for details.

Stiff Steps

- ✓ Measuring is not a precise science; there are many variables to consider such as:
 - Boot width
 - Boot type - padded or thin boots effects size
 - Amount of use - Nylon will shrink up to 10% after repeated wet/dry conditions
- ✓ As a general rule, the following chart will apply for most situations:

| Men's Boot Size | Boot Circumference | Stiff Step Size to Order |
|------------------------|--------------------|--------------------------|
| 6 - 8 (average female) | 14" | 15 |
| 8 - 9 1/2 | 15" | 16 |
| 10 - 13 | 16" | 17 |

- ✓ Double check by loosely measuring the boot circumference at the instep (2 vertical fingers between the laces and the measuring tape) and add 1 inch. This additional inch is lost during sewing and the protrusion (left and right) of the steel plate in the instep.
- ✓ Again, remember that nylon shrinks 5-10% over the years.
- ✓ If needed, custom sizes can be made for you.

Right Tandem Stiff Step

F01T

\$27.50

- ✓ This step has a 4" stiff riser at the top of the step to prevent the step from rotating uncomfortably when tandem climbing.
- ✓ Ergonomically designed to prevent ankle twisting.

OR1 Mitchell Cords

F08 (short)

\$3.00

F07 (long)

\$4.50

- ✓ Made of strong and durable 9mm (5/16") static rope, these cords are the proper length for Mitchell users up to 6'8".
- ✓ The rope on the long cord works well through the chest roller.

OR1 Soft Steps

F5001 (each)

\$14.00

- ✓ These foot loops do not have stiff plates in the instep.
- ✓ Available in size 17 only.
- ✓ Specify left or right step when ordering individually.

Ropewalker Components & Accessories

OR1 QAS - Quick Attachment Safety

F0401 \$69.85

- ✓ QAS, third cow's tail, or Jumar safety, call it what you wish.
- ✓ A handled ascender with a rope lanyard that is fully adjustable from 10" to 40" (harness eye to ascender eye).
- ✓ The adjustment is achieved through the careful engineering of a Triple Wrapped Prusik Hitch.
- ✓ By having the ability to adjust the lanyard length, the ascender will always be at just the right length.
- ✓ Choose from a right or left Petzl Ascension.
- ✓ Other ascenders are available (prices will vary). See the "Climbing Hardware" section (page 18) for information.

OR1 Reversed QAS

F0401R \$75.00

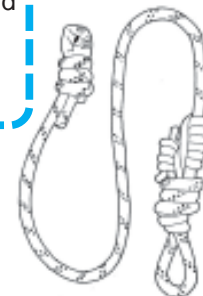

- ✓ If you use a chest plate with double rollers and run your QAS through one of the rollers, OR1 recommends that you use a reversed QAS.

Our QAS and Adjustable Lanyard both come with detailed user documentation.

OR1 Adjustable Lanyard

F04 \$10.00

- ✓ Ever wished an ascender could reach just a little further?
- ✓ The OR1 QAS has the ability to adjust to the exact length needed.
- ✓ Shorten for climbing, lengthen to cross a tough obstacle.
- ✓ Either way, the adjustable lanyard is a necessity for any climber.
- ✓ Adjustment range of 10"-40".

Fully lengthened

Fully shortened

Accessory Carabiners

K755.05 (key, anodized, 50mm) \$4.50
K705.06 (key, anodized, 65mm) \$5.00

- ✓ This little accessory carabiner can be quite useful when a small clip is needed.
- ✓ Commonly used to clip your double-bungee system to the chest plate.

K755.05

K705.06

- ✓ Our accessory carabiners feature a "key" lock will not hang on clothes or in the hole like other hook versions can.

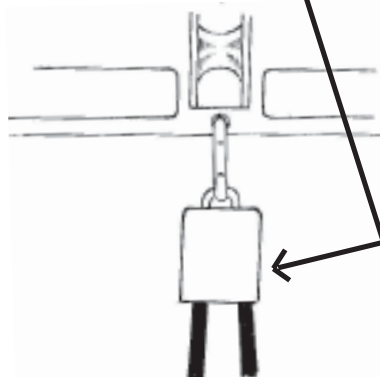

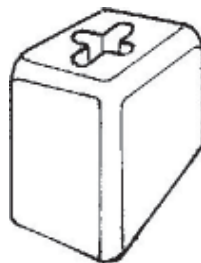

Key Lock

Hook Lock

OR1 Pinch Protector

R80 \$8.25

- ✓ Occasionally, the chest pulley sucks either clothing or chest hairs into the pulley.
- ✓ This hollowed-out, milled piece of nylon is the perfect solution.

OR1 Bungee Cord Assembly

F03 (w/ hardware) \$15.00
F06 (just cord) \$10.00

- ✓ These 1/4 inch extra bouncy cords are hand made in the USA.
- ✓ It includes a quality small pulley with a brass sheave, two 3.5mm Maillon Rapide quick links and an appropriate attachment device at the top.
- ✓ The end loops are secured with stainless steel clamps and covered with shrink tubing.
- ✓ See sizing chart below when ordering .

| HEIGHT | BUNGIE CORD TO ORDER |
|--------------|----------------------|
| 4'10" - 5'3" | Small |
| 5'3" - 5'10" | Medium |
| 5'10" - 6'5" | Large |
